

1-181SL Adapter PA for Round Rods SNAP-LINE

with clip-in installation for 3-point cam, rattle-free fastening

Adapter, PA for round rods SNAP-LINE with clip-in installation for 3-point cam, rattle-free fastening

- Quick, tool-less installation, of the adapter on round rods ($\varnothing 8\text{mm}/0.315$) through integrated one-way clamping ring.
- The clamping fingers spring into the stud groove.
- The adapter is non-detachable.
- This adapter should be used only with quarter-turns or swinghandles that turn a maximum of 90 degrees.

Advantages:

1. Standard length round rods, without eyelets, can be applied.
2. Rods are cut to length (**mind the 14mm/0.551**).
3. Easy, cost-saving installation without the use of c-clips.
4. No complex or time-consuming installation.

Material:

- **Adapter:** PA, black
- **Clamping Ring:** spring steel
