

# 5-120 Sponge Rubber Tapes

EPDM or CR

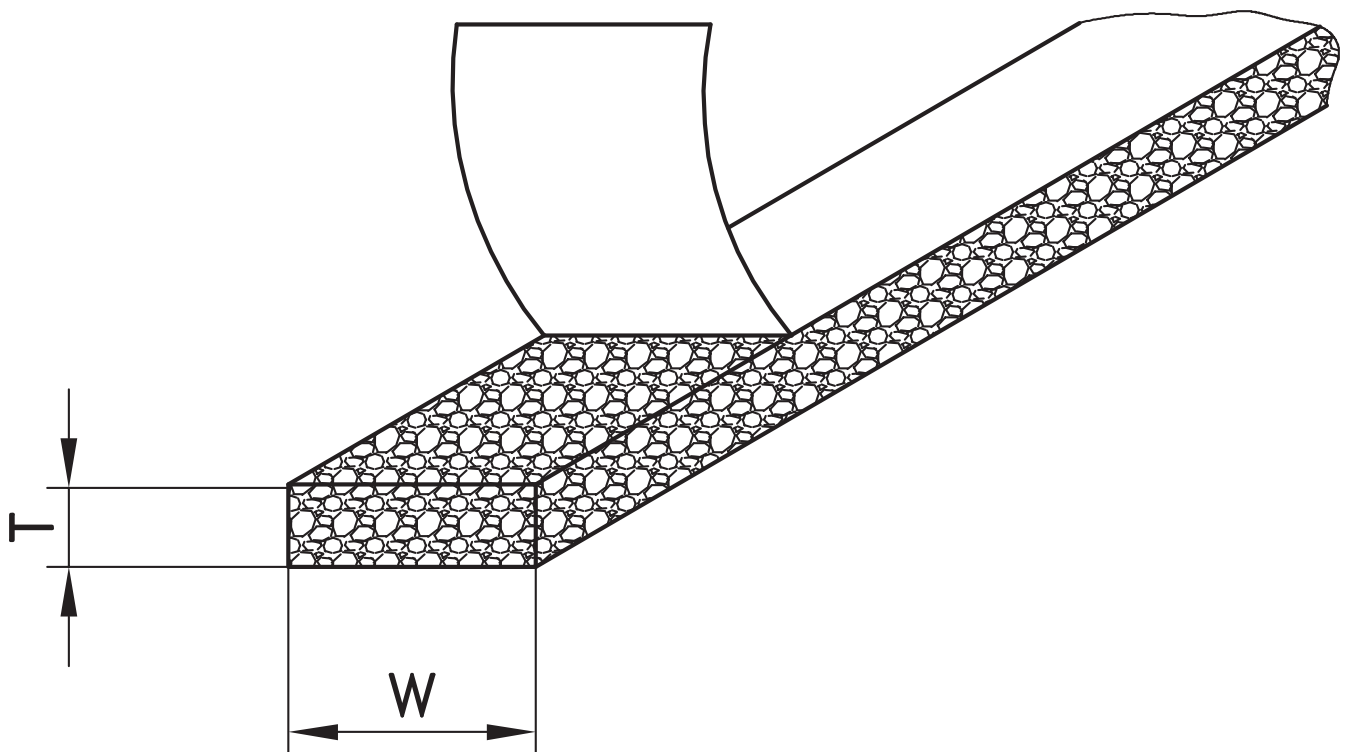

These closed cell sponge rubber tapes are made of EPDM or CR.

- Self-adhesive and non-stretching. During the cutting to size process, the outside cells are cut. These "damaged" cells can result in a max. 5% water absorption.
- Other dimensions are available on request.
- Special dimensions are available within 3 weeks.

**Material:**

- **Sponge rubber tapes:** EPDM or CR
- **Storeability:** 6 month
