

6-152 Slam latch for sliding door

Advantages

- Slam latch consists of two parts (bolt and locking element) for sliding doors.
- The door-part catches the slam-bolt and is also the limit stop for the frame-part.
- When using extruded aluminium profiles, different profile widths can be used due to oblong holes.
- Finger-tip grip allows easy opening.
- Opening by pulling the handle element.
- Self-closing by sliding the door shut.

Materials

- **Bolt and locking element:** zinc die, black
- **Slot nuts:** steel, zinc plated
- **Cylinder barrel:** PA, black
- **Spring:** stainless steel
- **Rectangular seal:** polyurethane, black

Remarks

Fastening with 4 screws M6 (e.g. DIN 912) and the slot nuts which are included in scope of delivery. (1.)
Version with cylinder barrel is supplied with 2 keys.
